

Application to adopt a Stargazer Puppy

This application is used to help you choose a puppy that will be a perfect match for your family; and to ensure that you are fully aware of the commitment needed to provide a loving safe home for your puppy. We feel it is our responsibility to help you find just the right puppy for you based on your answers; and of course we want you to be able to choose the sex and color choice of your puppy. Each puppy has a very distinctly different personality so the questions below will be helpful in our judgement.

How many hours a day do you expect the puppy to be left alone while the family is away?

Will the puppy be crated during this time, or in a safety gated area of the house?

Do you have a completely fenced in back yard? It is very important to never trust a Cavalier off the leash unless you are in a fenced in area. They are notorious for running after squirrels, birds etc. or even to say hello to a neighbor across the street.

Do you intend for this puppy to be an outdoor dog?

Are there other pets in the household? Cavaliers are very social animals and will do well with cats as well as other dogs.

Are you familiar with crate training for house breaking? I highly recommend that you research this option of training; as it has proven to work quite well.

Are there children in the household? Cavaliers and children are wonderful together; if you have smaller children you may want one of the larger puppy's from the litter.

Please feel free to ask any questions you may have for me.
